2007 Model (Serial No. M0026AX140001-)

5- And 8-Blade, 762 MM (30-Inch) Reel Cutting Units

2007 Model (Serial No. M0030HX140001-)

(Specifications and design subject to change without notice)

Product Identification And Serial Number Plate

An individual product identification and serial number is assigned to each machine. When writing about or filling out warranty claims, use all the characters shown on the plate.

Example: 1TC2653T++T050001

1TC- Factory Designation (Turf Care)
 2653- Model Or Machine Designation
 (2653 Trim And Surrounds Mower)
 T- Configuration Code
 (2653 Diesel 3-Wheel Drive)
 +- Random Number
 +- Calendar Year of Manufacture
 T- Turf Care
 050001- Serial Number

Product Configuration Code

The configuration "alpha" code identifies a variation of a product. Example: A machine may be manufactured as a two-wheel or four-wheel drive unit, and be shipped with standard or wide cutting units; thus four variations of the same machine exist. It also identifies different products which have the same model or machine designation (a tractor and an attachment tiller may have the same model numbers). If no configuration "alpha" code is required, space is filled in with an "X".

Serial Number Listing Information

Serial number information is listed to show on which machines each part can be used; for example:

-	The part can be used on all products.
000000 -	The part can be used on products beginning with the serial number listed.
- 000000	The part can be used on products up to and including the serial number listed.
000000 - 000000	The part can be used on products between and including the serial number listed.

When XXXXXX's are listed in place of a serial number, a serial number change was made, but the exact serial number was not available at the time of publication.

To The Customer

The part numbers in this Parts Catalog were correct at the time of publication. Per John Deere policy, we continuously improve our products. Therefore, when ordering parts verify the part numbers with your dealer.

SI Units of Measure

Metric dimensions are provided as applicable throughout this parts catalog.

Bolt and Cap Screw Strength Identification

Bolts and cap screws required to have high-strength qualities equivalent to metric property class 10.9 (SAE grade 8) or higher are identified throughout this catalog by the description 10.9, 12.9 or 14.9. All standard bolts and cap screws are metric property class 8.8 (SAE grade 5) or lower.

Illustrations

Illustrations in this catalog are only intended as a reference for dealers and customers. These illustrations do not necessarily represent the exact view of the parts.

Box-Enclosed Illustrations

Box-enclosed keyed parts in the illustration are available as a service assembly or an attachment. These parts may also include parts not available for service. The illustrations may not show all individual parts of an attachment. A box not keyed includes non-current parts.

Orientation Of Product

An arrow shown with an illustration is to indicate the direction of product forward travel. Right Hand (RH) and Left Hand (LH) sides are determined by product forward travel.

Orientation of Engine

Right Hand (RH) and Left Hand (LH) sides are determined by standing at flywheel and facing the engine.

John Deere Remanufactured Components

The REMAN parts listed in this catalog are intended for the repair or replacement of failed or worn original equipment components. John Deere Reman components are manufactured to stringent John Deere standards and produced to original John Deere specifications that incorporates the latest design and performance improvement updates.

Unités de coupe de rabatteur

PU01431 A.1

**PU01431**

À 5 et 8 lames, unités de coupe de rabatteur 660 mm (26 in.)

Modèle 2007 (no de série M0026AX140001-)

À 5 et 8 lames, unités de coupe de rabatteur 762 mm (30 in.)

Modèle 2007 (no de série M0030HX140001-)

(Les caractéristiques et la conception sont sujettes à modification sans préavis.)

Plaque d'identification de produit et plaque constructeur

Une identification de produit et un numéro de série sont attribués à chaque machine. Inclure l'ensemble des caractères visibles sur la plaque en écrivant au sujet d'une demande sous garantie ou en remplissant celle-ci.

Exemple: TC2653T010001 – (13 chiffres)

TC- Désignation d'usine (Turf Care)
 2653- Désignation de modèle ou de machine
 T- Code de configuration
 (3 roues motrices diesel 2653B)
 010001– Numéro de série

Exemple: 1TC2653T++T050001 – (17 chiffres)

1TC- Désignation d'usine (Turf Care)
 2653– Désignation de modèle ou de machine
 T- Code de configuration
 +- Nombre au hasard
 +- Année civile de fabrication
 T- Turf Care
 050001– Numéro de série

Code de configuration produit

Le code de configuration "alpha" signale qu'il s'agit d'une variation de produit. Exemple: une machine fabriquée en tant qu'unité à deux ou quatre roues motrices, puis expédiée avec des unités de coupe standard ou large; donc, il existe quatre variations de la même machine. Il sert aussi à identifier différents produits ayant la même désignation de modèle ou de machine. (Un tracteur et un cultivateur-accessoire peuvent avoir le même numéro de modèle.) Si aucun code de configuration "alpha" n'est nécessaire, un "X" figure dans ce champ.

Informations concernant la liste des numéros de série

Le numéro de série est donné dans la liste pour indiquer sur quelles machines chaque pièce peut être utilisée.

- La pièce peut être utilisée sur tous les produits.
- 000000 - La pièce peut être utilisée sur tous les produits à partir du numéro de série indiqué.
- 000000 La pièce peut être utilisée sur tous les produits jusqu'au numéro de série indiqué inclus.
- 000000 - 000000 La pièce peut être utilisée sur tous les produits entre les numéros de série indiqués inclus.

Le XXXXXX à la place du numéro de série signale que celui-ci a été modifié mais que le nouveau numéro de série n'était pas encore disponible au moment de la publication du catalogue.

Au client

Les numéros de référence dans ce catalogue de pièces étaient corrects au moment de la publication. Chez John Deere, notre politique est celle d'une amélioration continue des produits que nous fabriquons. Lors de la commande de pièces, il est donc recommandé de vérifier les numéros de référence auprès du concessionnaire.

Unités de mesure SI

Les dimensions sont données en unités métriques, le cas échéant, dans ce catalogue pièces.

Identification de la résistance des boulons

Les boulons devant présenter des caractéristiques de haute résistance de qualité au moins équivalente à la classe de propriété métrique 10.9 (catégorie SAE 8) sont identifiés tout au long de ce catalogue par la description 10.9, 12.9 ou 14.9. Tous les boulons standard sont de classe de propriété métrique 8.8 (catégorie SAE 5) ou inférieure.

Illustrations

Les illustrations de ce catalogue ne sont fournies qu'à titre de référence pour les concessionnaires et les clients. Ces illustrations ne sont pas forcément une reproduction exacte de la vue des pièces.

Illustrations encadrées

Les pièces indiquées avec un numéro de légende dans l'encadré sont disponibles en tant qu'ensemble de rechange ou accessoire. Ces pièces peuvent aussi comporter des pièces non réparables/remplaçables. Il se peut que toutes les pièces d'un accessoire ne figurent pas dans une illustration. Un encadré sans légende contient des pièces périmées.

Orientation du produit

Les flèches sur certaines illustrations désignent le sens de marche avant du produit. Les côtés droit et gauche sont déterminés par rapport au sens de marche avant du produit.

Orientation du moteur

Les côtés droit et gauche sont déterminés en se mettant devant le volant-moteur et en faisant face au moteur.

Composants réusinés John Deere

Les pièces de REMAN répertoriées dans ce catalogue sont destinées à la réparation ou au remplacement de composants d'équipement d'origine qui sont cassés ou usés. Les composants John Deere Reman sont fabriqués selon les normes strictes de John Deere et de manière à être conformes aux spécifications d'origine John Deere comprenant les dernières améliorations apportées à la conception et en termes de rendement.

Produktidentifikations- und Seriennummernschild

Jeder Maschine wird eine individuelle Produktidentifikation und Seriennummer zugewiesen. Beim Schreiben über bzw. Ausfüllen von Garantieforderungen müssen alle auf dem Schild angegebenen Zeichen verwendet werden.

Beispiel: TC2653T010001- (13-stellig)

TC- Werksbezeichnung (Turf Care)
 2653- Modell- oder Maschinenbezeichnung
 T- Konfigurationscode
 (2653B Diesel 3-Radantrieb)
 010001- Seriennummer

Beispiel: 1TC2653T++T050001- (17-stellig)

1TC- Werksbezeichnung (Turf Care)
 2653- Modell- oder Maschinenbezeichnung
 T- Konfigurationscode
 +- Zufallszahl
 +- Herstellungs-Kalenderjahr
 T- Turf Care
 050001- Seriennummer

Produktkonfigurationscode

Der Konfigurationscode "alpha" kennzeichnet eine Ausführung eines Produkts. Beispiel: Eine Maschine kann beispielsweise als Zweirad- oder Allradantriebseinheit gefertigt und mit standardmäßigen oder breiten Mähwerken geliefert werden; deshalb gibt es vier Ausführungen der gleichen Maschine. Der Code kennzeichnet außerdem verschiedene Produkte, die über die gleiche Modell- bzw. Maschinenbezeichnung verfügen (ein Traktor und ein Bodenbearbeitungsgerät können die gleichen Modellnummern aufweisen). Wenn kein Konfigurationscode "alpha" erforderlich ist, wird der Freiraum mit einem "X" gefüllt.

Aufgeführte Seriennummerninformationen

Die Seriennummerninformationen werden aufgeführt, um anzugeben, an welchen Maschinen jedes Teil verwendet werden kann. Beispiel:

	-		Das Teil kann an allen Produkten verwendet werden.
000000	-		Das Teil kann an Produkten verwendet werden, die mit der aufgeführten Seriennummer beginnen.
	-	000000	Das Teil kann an Produkten bis zu und einschließlich der aufgeführten Seriennummer verwendet werden.
000000	-	000000	Das Teil kann an Produkten zwischen und einschließlich der aufgeführten Seriennummern verwendet werden.

Wenn XXXXXX anstelle einer Seriennummer angegeben wird, wurde eine Seriennummeränderung durchgeführt, aber die genaue Seriennummer war zum Zeitpunkt der Veröffentlichung nicht verfügbar.

An den Kunden

Die Teilenummern in diesem Teilekatalog waren zum Zeitpunkt der Veröffentlichung richtig. Gemäß der Richtlinie von John Deere verbessern wir ständig unsere Produkte. Bei der Bestellung von Teilen die Teilenummern durch den Händler bestätigen lassen.

SI-Maßeinheiten

In diesem Ersatzteilkatalog werden, soweit zutreffend, metrische Abmessungen angegeben.

Festigkeitskennzeichnung von Bolzen und Sechskantschrauben

Bolzen und Sechskantschrauben, die über hochfeste Eigenschaften der metrischen Güteklasse 10.9 (SAE-Güteklasse 8) oder einer höheren Güteklasse verfügen müssen, werden in diesem Katalog durch die Bezeichnung 10.9, 12.9 oder 14.9 angegeben. Alle standardmäßigen Bolzen und Sechskantschrauben entsprechen der metrischen Güteklasse 8.8 (SAE-Güteklasse 5) oder einer niedrigeren Güteklasse.

Abbildungen

Die Abbildungen in diesem Katalog dienen nur als Referenz für Händler und Kunden. Diese Abbildungen sind nicht unbedingt eine genaue Darstellung der Teile.

Abbildungen mit umrandeten Teilen

Mit einer Umrandung versehene Teile sind als Wartungsbaugruppe oder Zubehör erhältlich und in der Abbildung mit einer Nummer gekennzeichnet. Diese Teile können außerdem Teile enthalten, die nicht gewartet werden können. Die Abbildungen zeigen möglicherweise nicht alle Einzelteile eines Zubehörs. Umrandete Teile ohne Nummern sind alte Teile.

Ausrichtung des Produkts

Ein Pfeil in einer Abbildung zeigt die Vorwärtsfahrtrichtung des Produkts an. Die Bezeichnungen RECHTS und LINKS beziehen sich auf die Vorwärtsfahrtrichtung.

Ausrichtung des Motors

Die Angaben "Rechts" und "Links" beziehen sich auf die Ansicht des Motors von der Schwungradseite aus.

John Deere-Austauschteile

Die in diesem Katalog aufgeführten Austauschteile (REMAN) sind zur Reparatur bzw. zum Ersetzen von defekten oder abgenutzten Originalausrüstungsteilen bestimmt. John Deere-Austauschteile entsprechen den strengen John Deere-Normen und werden gemäß den ursprünglichen John Deere-Spezifikationen, die die neuesten Konstruktions- und Leistungsverbesserungen umfassen, gefertigt.

Unità di taglio con aspo

PU01431 A.1

**PU01431**

5 e 8 lame, unità di taglio con aspo da 660 MM (26-Inch)

Modello 2007 (numero di matricola M0026AX140001-)

5 e 8 lame, unità di taglio con aspo da 762 MM (30-Inch)

Modello 2007 (numero di matricola M0030HX140001-)

(I dati tecnici e le caratteristiche progettuali sono soggetti a modifiche senza preavviso)

Targhetta numero di identificazione prodotto e di matricola

A ciascuna macchina viene assegnato un singolo numero di identificazione prodotto e di matricola. Quando si redige o si compila una richiesta di rimborso in garanzia, usare tutti i caratteri riportati sulla targhetta.

Esempio: TC2653T010001 – (13 cifre)

TC- Designazione fabbrica (Turf Care)
 2653- Designazione modello o macchina
 T- Codice di configurazione
 (2653B diesel a 3 ruote motrici)
 010001– Numero di matricola

Esempio: 1TC2653T++T050001 – (a 17 cifre)

1TC- Designazione fabbrica (Turf Care)
 2653– Designazione modello o macchina
 T- Codice di configurazione
 +- Numero casuale
 +- Anno solare di costruzione
 T- Turf Care
 050001– Numero di matricola

Codice di configurazione prodotto

Il codice di configurazione "alpha" identifica una variazione in un prodotto. Esempio: una macchina può essere costruita come unità a due ruote motrici o a trazione integrale ed essere dotata di unità di taglio standard o larghe; pertanto esistono quattro variazioni della stessa macchina. Inoltre, identifica diversi prodotti con la stessa designazione di modello o macchina (un trattore e un attrezzo erpice possono avere gli stessi numeri di modello). Se non occorre alcun codice di configurazione "alpha", lo spazio viene compilato con una "X".

Informazioni sui numeri di matricola

Le informazioni sui numeri di matricola mostrano su quale macchina può essere usato ciascun componente; ad esempio:

- Il componente può essere usato su tutti i prodotti.
- 000000 – Il componente può essere usato sui prodotti a partire dal numero di matricola indicato.
- 000000 Il componente può essere usato sui prodotti fino al numero di matricola indicato incluso.
- 000000 – 000000 Il componente può essere usato sui prodotti compresi tra i numeri di matricola indicati ed inclusi.

Se è presente XXXXXX al posto del numero di matricola significa che è stata effettuata una modifica, ma il numero di matricola esatto non era disponibile al momento della stesura del catalogo.

Informazioni per il cliente

I codici ricambio indicati nel presente catalogo ricambi erano corretti alla data di pubblicazione del catalogo stesso. Come da politica John Deere, continuiamo a migliorare i nostri prodotti. Pertanto, per l'ordinazione dei componenti, verificare i codici ricambio con il concessionario.

Unità di misura del sistema internazionale

In questo catalogo ricambi vengono forniti valori metrici, ove applicabili.

Identificazione della resistenza della viteria

La viteria dotata di proprietà di resistenza elevate equivalenti a 10.9 in caso di classe metrica (SAE grado 8) o valore superiore è identificata nel presente catalogo mediante l'indicazione 10.9, 12.9 o 14.9. Tutta la viteria standard è pari o inferiore a 8.8 in caso di classe metrica (SAE grado 5).

Illustrazioni

Le illustrazioni presenti in questo catalogo vengono fornite esclusivamente a scopo di riferimento per rivenditori e clienti. Dette illustrazioni non rappresentano necessariamente l'aspetto effettivo dei componenti.

Illustrazioni racchiuse in un riquadro

I componenti numerati racchiusi in un riquadro nell'illustrazione sono disponibili come gruppo ricambi o attrezzo. Inoltre, tali componenti possono includere pezzi non disponibili per la manutenzione. Le illustrazioni non sempre mostrano tutti i componenti di un attrezzo. Un riquadro non numerato include componenti non attuali.

Orientamento del prodotto

La freccia riportata in una figura indica il senso di avanzamento del prodotto. I lati destro (dx) e sinistro (sx) si intendono riferiti al senso di avanzamento del prodotto.

Orientamento del motore

I lati destro (dx) e sinistro (sx) si intendono sostando presso il volano e rivolti verso il motore.

Componenti ricondizionati John Deere

I ricambi RICONDIZ. elencati in questo catalogo sono destinati alla riparazione o sostituzione di componenti delle attrezzature originali difettosi o usurati. I componenti ricondizionati John Deere vengono fabbricati nel rispetto dei rigorosi standard John Deere e sono conformi alle specifiche originali John Deere che includono i più recenti aggiornamenti progettuali e prestazionali.

Unidades de corte de molinete

PU01431 A.1

**PU01431**

Unidad de corte de molinete (26 in.) con 8 y 5 cuchillas, 660 mm

Modelo de 2007 (N° de serie M0026AX140001-)

Unidad de corte de molinete (30 in.) con 8 y 5 cuchillas, 762 mm

Modelo de 2007 (N.º de serie M0030HX140001-)

(Las especificaciones y el diseño están sujetos a cambios sin previo aviso)

Chapa de identificación y número de serie del producto

Se asigna un número de identificación de producto y un número de serie individual a cada máquina. Al redactar o completar reclamos de garantía, usar todos los caracteres que figuran en la chapa.

Ejemplo: TC2653T010001 – (13 dígitos)

TC- Designación de fábrica (Turf Care)
 2653- Designación de modelo o máquina
 T- Código de configuración
 (Diesel 2653B con tracción en 3 ruedas)
 010001- Número de serie

Ejemplo: 1TC2653T++T050001 – (17 dígitos)

1TC- Designación de fábrica (Turf Care)
 2653- Designación de modelo o máquina
 T- Código de configuración
 +- Número aleatorio
 +- Año calendario de fabricación
 T- Turf Care
 050001- Número de serie

Código de configuración del producto

El código de configuración "alfa" identifica una variación del producto. Ejemplo: La máquina puede fabricarse con tracción en dos o cuatro ruedas y despacharse con unidades de corte estándar o anchas; por lo tanto, existen cuatro variaciones de una misma máquina. También identifica productos distintos con la misma designación de modelo o máquina (un tractor con un accesorio de cultivadora pueden tener los mismos números de modelo). Si no se necesita un código "alfa", el espacio se completa con una "X".

Información de lista de número de serie

La información de número de serie se lista para indicar las máquinas en las cuales se puede usar la pieza; por ejemplo:

- La pieza puede usarse en todos los productos.
- 000000 - La pieza puede usarse en los productos a partir del número de serie listado.
- 000000 La pieza puede usarse en los productos hasta e inclusive el número de serie listado.
- 000000 - 000000 La pieza puede usarse en los productos entre e inclusive el número de serie listado.

Cuando XXXXXX aparece en lugar de un número de serie, quiere decir que se modificó el número de serie, pero el número de serie preciso no estaba disponible al momento de la publicación.

Al cliente

Los números de pieza en este catálogo de piezas eran correctos al momento de la publicación. Conforme a la política de John Deere, mejoramos los productos continuamente. Por lo tanto, al pedir piezas, consultar al concesionario para verificar los números de pieza.

Unidades de medida SI

Siempre que sea aplicable, en todo este catálogo de piezas las dimensiones se indican en el sistema métrico.

Identificación de resistencia de pernos y tornillos

Los pernos y tornillos que deben tener características de resistencia alta equivalentes al valor de sistema métrico 10,9 (grado 8 de SAE) o superior se identifican en este catálogo con la descripción 10,9; 12,9 ó 14,9. Todos los pernos y tornillos estándar son del valor de sistema métrico 8,8 (grado 5 de SAE) o inferior.

Ilustraciones

El propósito de las ilustraciones de este catálogo es únicamente servir de referencia para los concesionarios y clientes. Estas ilustraciones no necesariamente representan la vista exacta de las piezas.

Ilustraciones encerradas en cuadros

Los componentes con referencias encerradas en cuadros en la ilustración están disponibles como un conjunto de mantenimiento o un accesorio. Estas piezas pueden incluir otras que no estén disponibles como piezas de repuesto. Es posible que en las ilustraciones no se muestren todos los componentes individuales de un accesorio. Un cuadro sin referencia incluye componentes no actuales.

Orientación del producto

Una flecha junto a una ilustración sirve para indicar el sentido de avance del producto. Los lados derecho (RH) e izquierdo (LH) se determinan en función del sentido de avance del producto.

Orientación del motor

Los lados derecho (RH) e izquierdo (LH) se determinan al pararse junto al volante mirando hacia el motor.

Componentes remanufacturados de John Deere

Los componentes REMAN listados en este catálogo están destinados a la reparación o la sustitución de componentes originales averiados o desgastados. Los componentes Reman de John Deere están fabricados bajo estrictas normas de John Deere y realizados según las especificaciones originales de John Deere que incorporan las últimas actualizaciones y mejoras del diseño y del rendimiento.

Haspelklippenheter

PU01431 A.1

**PU01431**

5- och 8-bladiga haspelklippenheter på 660 mm (26 tum)

Modell 2007 (serienr M0026AX140001-)

5- och 8-bladiga haspelklippenheter på 762 mm (30 tum)

Modell 2007 (serienr M0030HX140001-)

(Specifikationer och utförande kan komma att ändras utan föregående meddelande)

Produktidentifierings- och serienummerplåt

Varje maskin har tilldelats ett unikt produktidentifierings- och serienummer. I korrespondens som gäller garantin eller vid ifyllning av garantianspråk måste samtliga tecken på plåten anges.

Exempel: TC2653T010001 – (13 tecken)

TC- Fabriksbeteckning (Turf Care)
 2653- Modell- eller maskinbeteckning
 T- Utförandekod
 (2653B Diesel 3-hjulsdrift)
 010001– Serienummer

Exempel: 1TC2653T++T050001 – (17 tecken)

1TC- Fabriksbeteckning (Turf Care)
 2653– Modell- eller maskinbeteckning
 T- Utförandekod
 +- Slumpmässig siffra
 +- Tillverkningsår
 T- Turf Care
 050001– Serienummer

Produktutförandekod

Utförandekoden "alpha" identifierar en produktvariation. Exempel: En maskin kan vara tillverkad som en två- eller fyrehjulsdriven enhet och levereras med standard eller breda klippenheter. Fyra variationer finns alltså tillgängliga för samma maskin. Koden identifierar även olika produkter som har samma modell- eller maskinbeteckning (en traktor och ett plogtillbehör kan ha samma modellnummer). Om ingen "alpha"-kod behövs anges ett "X" i fältet.

Upptagen serienummerinformation

Serienummerinformationen upptas för att visa vilka maskiner reservdelen kan användas på, exempelvis:

- **Reservdelen kan användas på alla produkter.**
- 000000** - **Reservdelen kan användas på produkter som börjar med det upptagna serienumret.**
- **000000** **Reservdelen kan användas på produkter t.o.m. det upptagna serienumret.**
- 000000** - **000000** **Reservdelen kan användas på produkter mellan och inklusive de upptagna serienumren.**

När XXXXXX anges istället för ett serienummer har serienumret ändrats, men det nya serienumret var inte tillgängligt när katalogen trycktes.

Till kunden

Numren i denna reservdelskatalog var korrekta när katalogen utgavs. I enlighet med John Deeres policy förbättrar vi konstant våra produkter. Bekräfta därför numren med din återförsäljare vid beställning av reservdelar.

SI-måttenheter

Metrisk mått visas i denna reservdelskatalog där de är tillämpliga.

Hållfasthetsidentifiering för bultar och skruvar

Bultar och skruvar, som kräver samma hållfasthet som metrisk klass 10.9 (SAE-klass 8) eller högre, identifieras i denna katalog genom beskrivningen 10.9, 12.9 or 14.9. Alla standardbultar och skruvar är av metrisk klass 8.8 (SAE-klass 5) eller lägre.

Illustrationer

Illustrationerna i denna katalog är endast avsedda som referens för återförsäljare och kunder. Illustrationerna utgör inte alltid en exakt bild av delarna.

Bilder i rutor

Referensnumrerade delar på bilden, som visas i särskilda rutor, är tillgängliga som en serviceenhet eller ett tillbehör. Dessa delar kan också inkludera delar, som inte är tillgängliga för service. Bilderna kanske inte visar alla individuella delar i ett tillbehör. En ruta utan referensnummer inkluderar delar som inte är uppdaterade.

Produktens orientering

En pil indikerar produktens körriktning framåt. Beteckningarna "höger" och "vänster" gäller sett i maskinens körriktning framåt.

Motorns inriktning

Avgör "höger" och "vänster" genom att stå vid svänghjulet och titta mot motorn.

John Deeres omarbetade komponenter

De omarbetade reservdelarna som är upptagna i denna katalog är avsedda för reparation eller byte av utrustningens originalkomponenter. John Deeres omarbetade komponenter är tillverkade efter John Deeres stränga standarder och har producerats efter John Deeres originalspecifikationer som omfattar de senast uppdaterade utformnings- och prestationsförbättringarna.

Fill plug: 20±4 lb-ft (27±5.5 Nm)
Drain plug: 7±1 lb-ft (9.5±1.4 Nm)

Valores de apriete de tapones del depósito hidráulico
Tapón de llenado: 20±4 lb-ft (27±5.5 Nm)
Tapón de vaciado: 7±1 lb-ft (9.5±1.4 Nm)

UC27991

ULTRA LOW SULFUR FUEL ONLY

M173256

IMPORTANT
To prevent engine damage:
• Do not use starting fluid
• Service air cleaner only when gauge reaches red line

IMPORTANT
Para no dañar el motor:
• No usar fluido de arranque
• Revisar el filtro de aire solamente cuando el indicador llegue a la raya roja

WARNING
Hot surface

ADVERTENCIA
Superficie caliente

WARNING
Operation of This Equipment May Create Sparks That Can Start Fires Around Dry Vegetation. A Spark Arrestor May be Required. The Operator Should Contact Local Fire Agencies for Laws or Regulations Relating to Fire Prevention Requirements.

ADVERTENCIA
El uso de este equipo puede crear chispas capaces de iniciar incendios en vegetación seca. Podría ser necesario usar un pararrayos. El operador deberá comunicarse con cuerpos de bomberos locales para informarse de leyes o reglamentos relacionados con los requisitos exigidos para la prevención de incendios.

PELIGRO
GASES EXPLOSIVOS Los alambres, tornos o cables pueden causar una explosión. Siempre protéjase los ojos y la cara. Nunca cargar la batería, usar cables de puente o unirse a conexiones de los terminales sin tener el consentimiento. Mantener los dedos alejados y protegidos.

VENENO
CAUSA GRAVES QUEMADURAS. Evitar el contacto con la piel, ojos o ropa. En caso de accidente, enjuagar con agua y llevar a un médico inmediatamente. Mantener lejos del alcance de los niños.

THIS MACHINE MODIFIED FOR UP TO B20 USE
TCU27871

CAUTION
Avoid equipment fires. Accumulation of grass, leaves and other debris on or near hot or moving parts can cause a fire. Inspect machine before, during, and after use. Shut off engine and allow machine to cool before cleaning.

ATENCIÓN
Evitar los incendios en el equipo. Las acumulaciones de paja, hojas y otros desechos cerca de piezas calientes o en movimiento pueden causar incendios. Revisar la máquina antes, durante y después de usarla. Parar el motor y dejar que la máquina se enfríe de limpiarla.

Inspect and clean the entire machine and pay special attention to these locations:

- Muffler and exhaust system
- Engine and engine cooling
- Cutting units

Revisar y limpiar toda la máquina, prestando atención especial a los puntos siguientes:

- Silenciador y sistema de escape
- Motor y sus refriger
- Unidades de corte

6

CAUTION
• Read operator's manual.
• Do not operate the machine without guards, shields, and safety devices in place and working properly.
• Do not operate when children and/or others are present.
• Do not operate the machine unless you are trained.
• Never carry loads.
• Keep people at a safe distance away.
• Follow loading manuals.
• Stop engine - Set park brake - Remove key

ATENCION
• Leer el Manual del operador.
• No manejar la máquina sin los protecciones, escudos y dispositivos de seguridad instalados y funcionando.
• No manejar la máquina mientras niños y/o otras personas estén presentes.
• No manejar la máquina sin estar capacitado para hacerlo.
• Nunca llevar cargas.
• Mantener a la gente a una distancia segura.
• Atender al manual de la máquina.
• Apagar el motor - Aplicar el freno de estacionamiento - Quitar la llave

PELIGRO
• Leer el Manual del operador.
• No manejar la máquina sin los protecciones, escudos y dispositivos de seguridad instalados y funcionando.
• No manejar la máquina mientras niños y/o otras personas estén presentes.
• No manejar la máquina sin estar capacitado para hacerlo.
• Nunca llevar cargas.
• Mantener a la gente a una distancia segura.
• Atender al manual del operador.
• Apagar el motor - Aplicar el freno de estacionamiento - Quitar la llave

ADVERTENCIA
Según el Código de recursos públicos 4442.6 del Estado de California

ADVERTENCIA: El uso de este equipo puede crear chispas capaces de iniciar incendios en vegetación seca. Podría ser necesario usar un pararrayos. El operador deberá comunicarse con cuerpos de bomberos locales para informarse de leyes o reglamentos relacionados con los requisitos exigidos para la prevención de incendios.

IMPORTANT
To prevent engine damage:

- Do not use starting fluid
- Service at a dealer only when gauge reaches red line

IMPORTANT
Pour éviter tout dégât au moteur:

- Ne pas utiliser de fluide d'aide au démarrage
- Nettoyer le filtre à air seulement quand l'indicateur atteint la ligne rouge

⚠ DANGER
To avoid injury from rotating blades, stay clear of reel.
Shut off machine before removing grass catcher, cleaning or servicing.

⚠ DANGER
Pour éviter de vous blesser avec les lames en rotation, restez à l'écart de l'enrouleur. Arrêtez la machine avant de retirer le bac d'ramassage, de la nettoyer ou de l'entretenir.
